

# ALEKS® Distance between Integers #1

6th Grade Middle School Math Course 1 / LV 6 / Pratt (Pratt)

Student Name/ID:

1. Find the distance between  $K$  and  $L$  on the number line below.

Distance: \_\_\_\_

2. Find the distance between  $G$  and  $H$  on the number line below.

Distance: \_\_\_\_

3. Find the distance between  $E$  and  $F$  on the number line below.

Distance: \_\_\_\_

4. Find the distance between  $E$  and  $F$  on the number line below.

Distance: \_\_\_\_

5. Find the distance between  $I$  and  $J$  on the number line below.

Distance: \_\_\_\_

6. Find the distance between  $K$  and  $L$  on the number line below.

Distance: \_\_\_\_

7. Find the distance between  $K$  and  $L$  on the number line below.

Distance: \_\_\_\_

8. Find the distance between  $E$  and  $F$  on the number line below.

Distance: \_\_\_\_

9. Find the distance between  $E$  and  $F$  on the number line below.

Distance: \_\_\_\_

10. Find the distance between  $I$  and  $J$  on the number line below.

Distance: \_\_\_\_

11. Find the distance between  $C$  and  $D$  on the number line below.

Distance: \_\_\_\_

12. Find the distance between  $K$  and  $L$  on the number line below.

Distance: \_\_\_\_

13. Find the distance between  $K$  and  $L$  on the number line below.

Distance: \_\_\_\_
