

## Science “Field” Trip

**Where:** Jensen Nature Path

**When:** Tuesday, September 3 (7<sup>th</sup> grade)

Thursday, August 29 (8<sup>th</sup> grade)

**Time:** During regular class time

The science students in Mrs. McGarry’s class will be taking a “field” trip to the Jensen Nature Path. Students will be walking from SAA to the path and back again. This will be during their regular class time.

Doing science involves many different skills such as predicting, observing, making models, classifying, and inferring. At the beginning of this school year we are focusing on these skills. The particular skill that students will be working on is making qualitative and quantitative observations. Students should dress appropriately for weather conditions. Please sign and return the following form. Thanks for your support.
